A class and at least one assignment, are required in order to allow your advisees to submit the paper (A class is analogue to a course). Typically an advisor require 3 classes for Master Thesis, PhD dissertation and Research work for each semester, however other classes may be created for courses requiring plagiarism check for the assignments. Examples: Master Thesis Aug 2013, PhD Dissertation Aug 2013.

In order to create a class click the + Add Class button at the right side of the page, 'Create a New Class' is shown.

Choose *Class Type* 'Standard Class' (default), and enter the *Class name* and the *Enrollment password* (Note, it is NOT your Turnitin's login password but a new password for your advisees to enroll into this class). In the *Class end date* set the due date of this class, click *Submit*. Then a Class ID is generated. Note down the Class ID and Enrollment Password and communicate the class ID and password to your advisees (Note: your advisees have to enroll to your class by themselves, you do not need to enter/enroll them). Click *Continue* button

The list page is shown (after you click *Continue* button above). Now you need to create an assignment for the class you just created above. Unless the class is for a course requiring several assignments where each of which need plagiarism check, you need only to create 1 assignment.

From the class list, click the class name just created and then from the next page click + Add Assignment button.
