How to connect router's wifi

Connect router's WIFI (IOS)

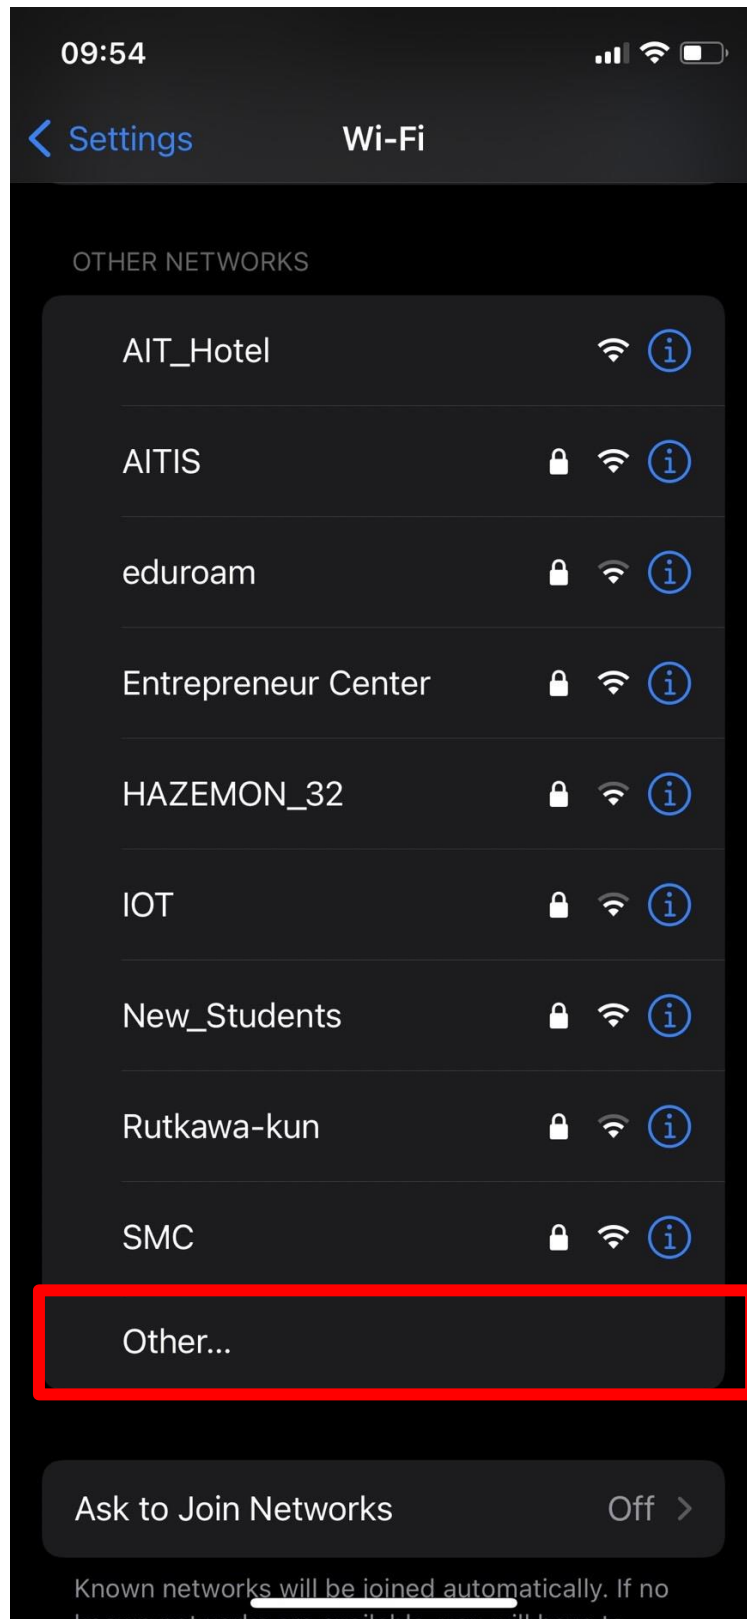

1.Touch Settings

1.2 Touch Wi-Fi

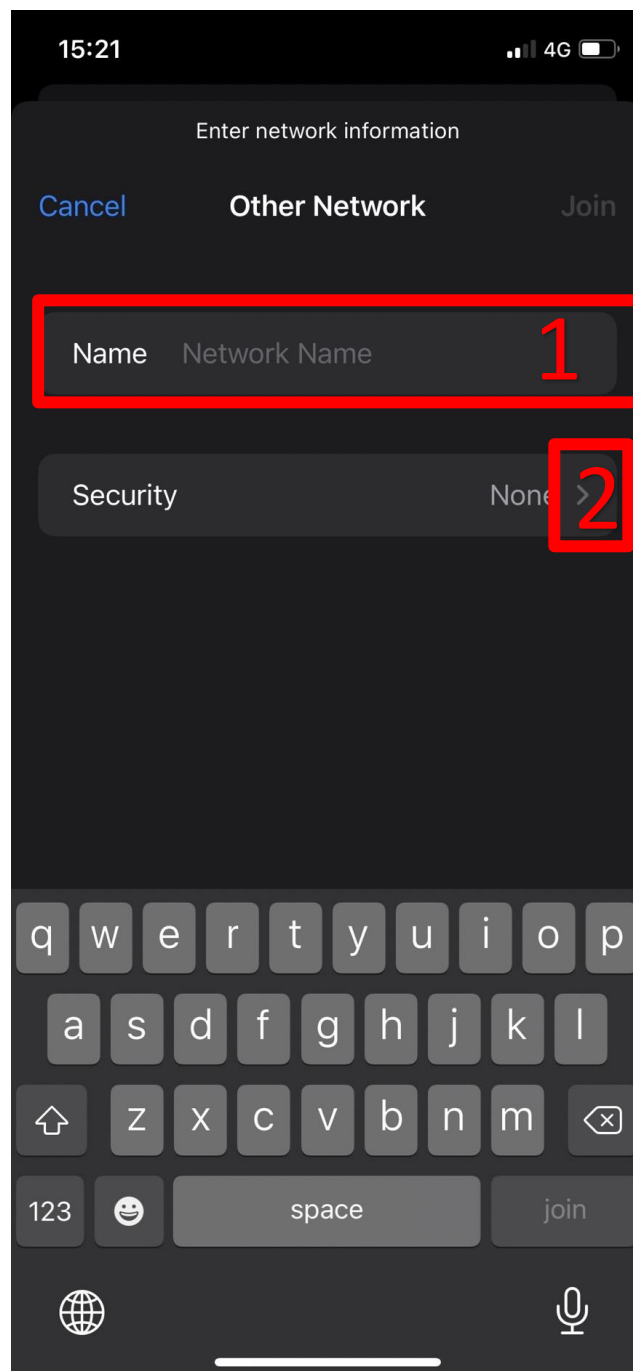

1.3 Touch Other

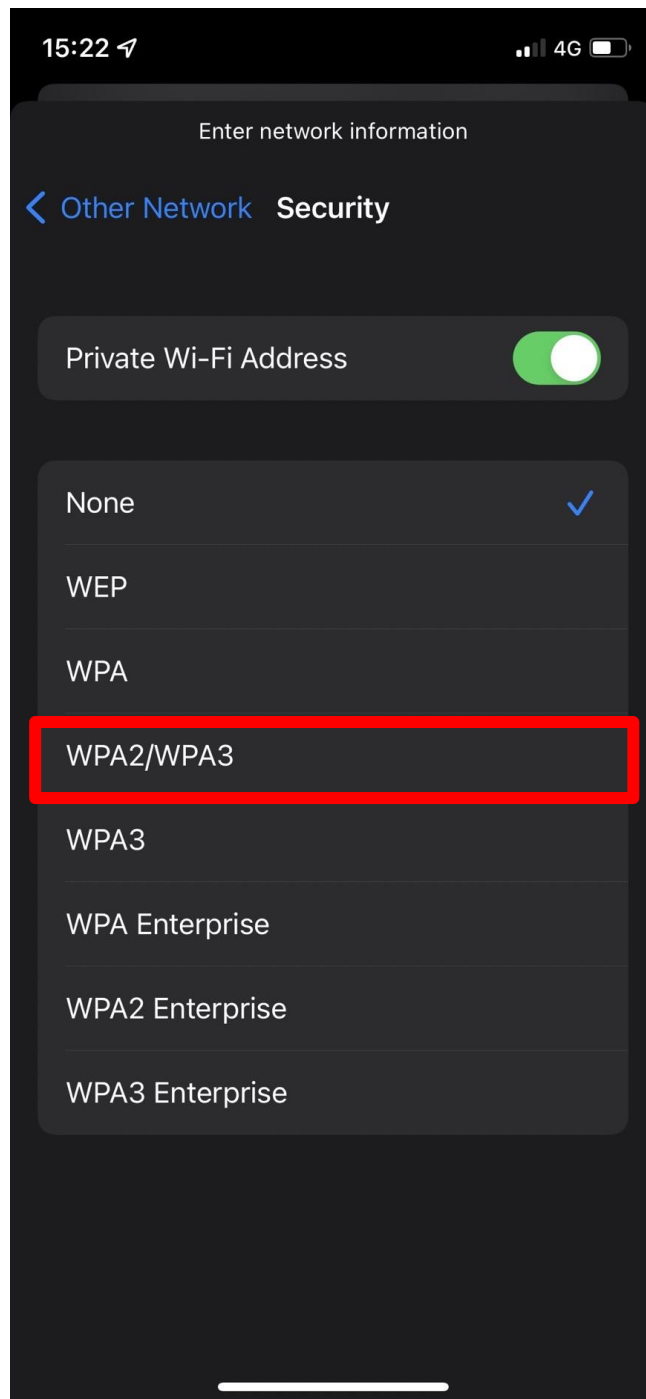

1.4 1. In name box enter your SSID

you can find this SSID at the sticker on the router we recommend to use 5GHz

2. Then in security box touch right arrow symbol

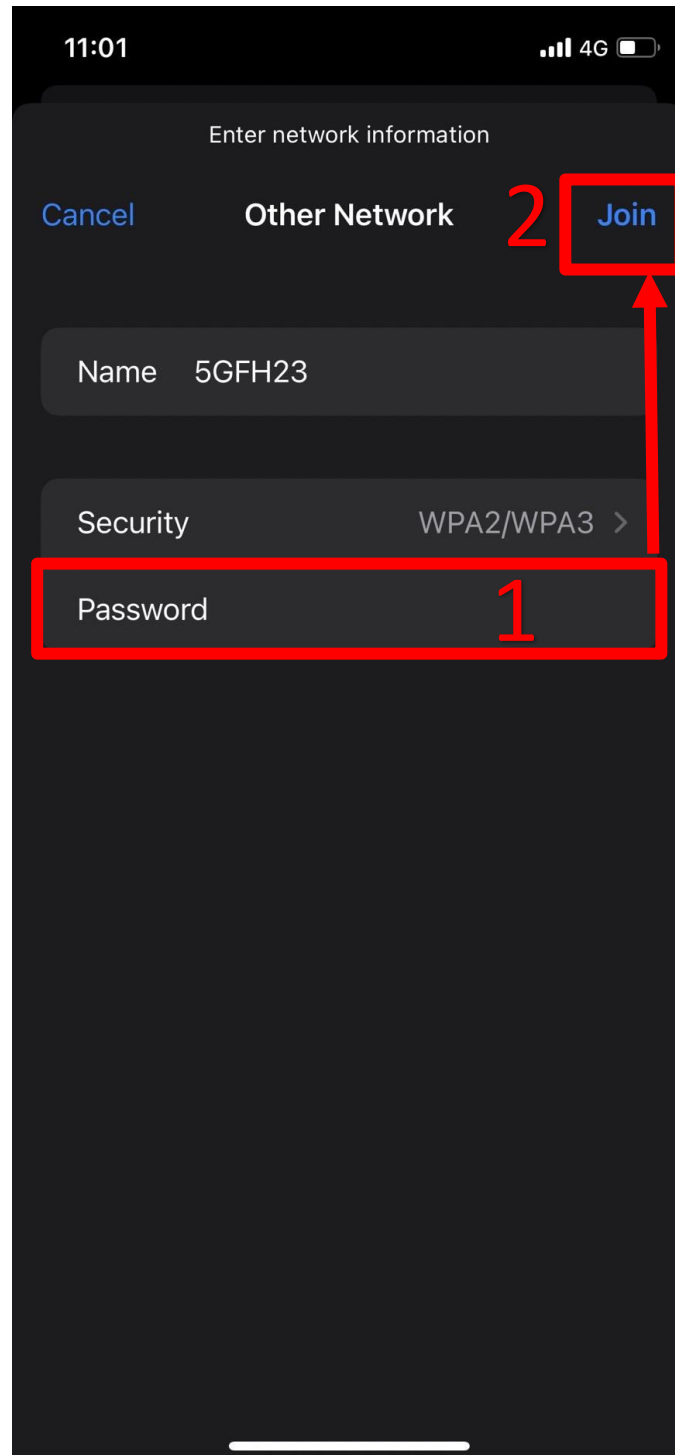

1.5 In Security select WPA2/WPA3 only

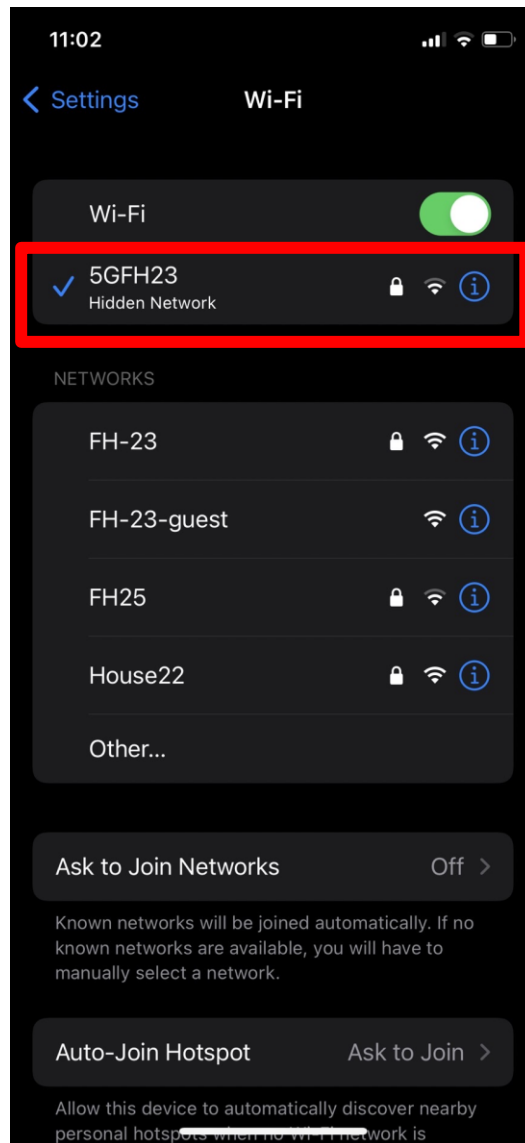

1.6 1. In Password box Enter your password,
your password is in your email from Accomodation Office

2. Then touch join

1.7 If you see right symbol , Now you can use Wi-Fi now

If you've followed this step and it still doesn't work please
