# User guide (Mac IOS)
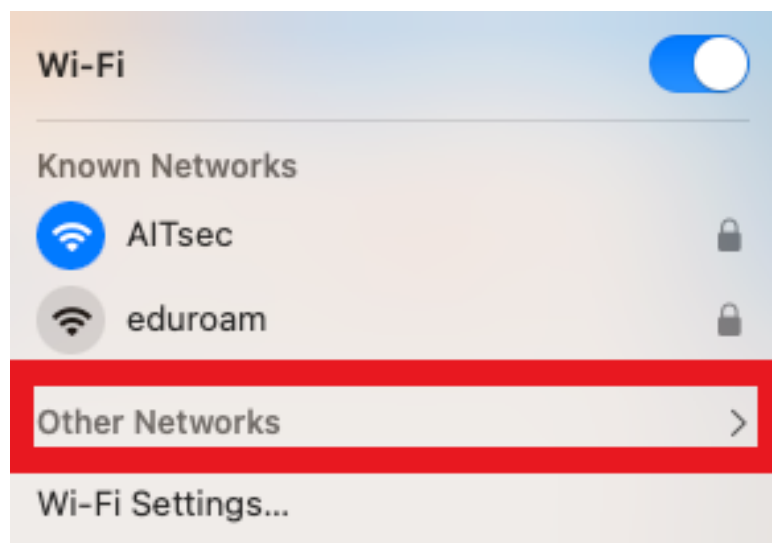

How to connect router's wifi

Connect router's wifi on Mac IOS

1.Touch WIFI Setting

2. Touch Other

3. Touch Other

4. In Network name box enter your SSID

you can find this SSID at the sticker on the router we reccomend
to use 5GHz , If you can't connect to 5GHz, try 2.4GHz.

Find and join a Wi-Fi network.
Enter the name and security type of the network you want
to join.

Network Name: 5GX33

Security: None

? Show Networks   Cancel   Join

5. In Security select WPA2/WPA3 only

Find and join a Wi-Fi network.
Enter the name and security type of the network you want
to join.

Network Name: 5GX33

Security ✓ None

WEP

WPA/WPA2 Personal

WPA2/WPA3 Personal

? Show Networks

6. In Password box Enter your password and touch Join

your password is in your email from AIT

If you've followed this step and it still doesn't work please
